

ACME EDUCATION LIMITED

Acme Education is a tuition network that conducts mainly maths tuition.

Tuition is conducted by well qualified teachers with many years of teaching experience. Tuition is conducted in small groups so that every student gets sufficient individual attention and space to think for themselves.

What is our specialism? We are committed to excellence. We want every student to be confident and be ahead in the subject. We want every student to pass and pass very well. We want them to reach their highest potential in the subject. To this end, we conduct initial diagnostic test to identify the student's general standard and identify their strengths and weaknesses. Based on this information we work out a suitable individual plan for the student.

Two of the main teachers of Acme Education are (a) Vina (b) Xavier

want anything but I would have spent money
